

Mobile Device Prep for Subjects

4 simple steps to start recording

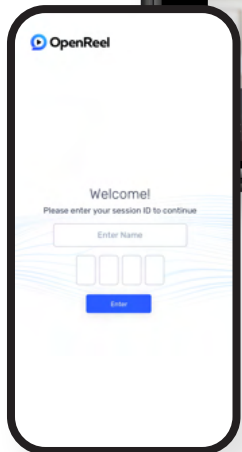

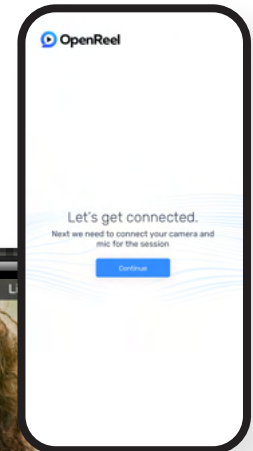

1. Download the Remote Capture app.

If already downloaded, verify your app is up to date.

3. Click continue.

If your director sent you an access link, your app will automatically open here, skipping Step 2.

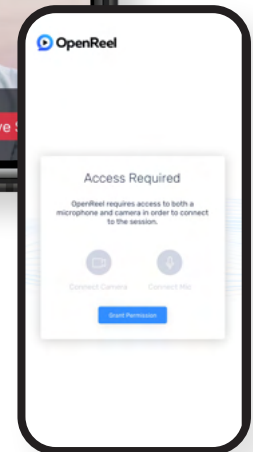

2. Enter name & Session ID.

Accept Terms and Conditions. Click enter.

4. Allow permissions for camera & microphone.

Follow prompts, then click Continue. Easily disable permissions after shoot.

Other tips to optimize your experience

- › **Update** your mobile iOS.
- › **Charge** your battery to 100%.
- › **Logout** of an old Session, if necessary.
- › **Set to Do Not Disturb** and toggle to Always.
- › **Connect** to WiFi.
- › **Storage:** Make sure you have at least 5GB of storage available.
